Keep in touch by Telephone...

On special occasions, **any** occasion, it's fun
(and thoughtful) to keep in touch by telephone.
You'll enjoy extending best wishes, telling them
some exciting news, or just chatting, but
that special someone you're calling will enjoy
hearing **your** voice even more.

Isn't there someone, somewhere, who'd like
to hear your voice... now?

For time and money saving tips
on "Out of Town" calling, turn to
introductory pages of this directory.

Call by Number... It's Faster

About
Our
Cover

The abstract design on the cover is symbolic of the
Telephone Business. In it may be found: lightning,
for electricity; the bell; a telephone; telephone building;
telephone poles and the directory. In the gray area
is a symbol of a sound track for the word "Hello!"

EMERGENCY CALLS

IMPORTANT! Make certain now how you can use your telephone to report fire, marauders, or accident. Plan to stay on the line until sure that someone understands the address at which help is needed.

	To Report a Fire	For Police Assistance	Sheriff
WINSLOW.....	5	3	79
JOSEPH CITY.....	Holbrook 79	Holbrook 79	Holbrook 79

If unable to complete Fire, Police, or other Emergency calls by calling the number, call or dial Operator (figure "0") — ask for "FIRE" or "POLICE" and give her the address where the assistance is desired, your name and telephone number.

Arizona Highway Patrol — To Report An Accident Call or Dial
The Operator And Ask For.....Enterprise 123

For the Telephone Number or Address of the nearest
Federal Bureau of Investigation Office (FBI), call.....Information

TELEPHONE SERVICE CALLS

	Call or dial Operator (figure "0")
Long Distance.....	Place call with Operator

How to Use a Dial Telephone IN JOSEPH CITY

FOR EMERGENCY AND TELEPHONE SERVICE CALLS SEE PAGE 1

DIALING INSTRUCTIONS

1. BE SURE OF THE NUMBER

— If you do not find it in the directory, dial Operator (figure "0") and ask for Information. Please do not call Information for numbers listed in the directory.

2. LIFT THE RECEIVER AND LISTEN FOR DIAL TONE — a steady "hum-m-ming" sound. DO NOT START TO DIAL UNTIL YOU HEAR THIS TONE.

3. WITH THE RECEIVER OFF PLACE YOUR FINGER IN THE OPENING WHERE YOU SEE THE FIRST FIGURE OF THE NUMBER YOU WISH TO CALL.

4. TURN DIAL AROUND UNTIL FINGER STRIKES THE FINGER STOP — Remove finger from opening and allow dial to return without interference.

5. PROCEED IN THE SAME WAY TO DIAL THE REMAINING FIGURES OF THE NUMBER IN THE ORDER IN WHICH THEY APPEAR.

6. TO MAKE SUCCESSIVE CALLS replace the receiver for a moment and proceed as above.

THE RINGING SIGNAL (an intermittent "burr-burr'ring" sound) OR THE BUSY SIGNAL (a steady "buzz-buzz-buzz") should be heard soon after the dialing is completed.

IF YOU MAKE A MISTAKE IN DIALING or if your finger slips or does not strike the stop, or if you do not hear the ringing or busy signal within a few seconds, replace the receiver for a moment. Then lift the receiver and when you hear the dial tone, dial your call again.

CALL FROM PAY STATIONS — Follow instructions shown on the telephone.

PARTY LINE AND EXTENSION TELEPHONE USERS — Always listen in before dialing to avoid interfering with other parties who might be using the line.

IMPORTANT — If when calling from a party line, you always get a busy signal after dialing a certain telephone number, it may indicate that you are calling another party on your line. To call another party on your line see instructions below.

TO CALL ANOTHER PARTY ON YOUR LINE

When the number you wish to call is the same as yours except for the last figure, it indicates the telephone is on your party line. Dial the number in the regular manner. You will hear the busy signal just before dialing the last figure in the number. Proceed to

dial the last figure and then HANG UP. You will then hear the ring of the called party. As soon as the ringing stops, lift the receiver and begin your conversation. If no one answers after a reasonable time, stop the ringing by lifting the receiver momentarily.

Out-Of-Town Telephone Calls

CALL BY NUMBER whenever you know it — IT'S FASTER!

When you place long distance calls by number, the operator can frequently complete your call *twice* as fast. If you don't know the number, the operator will give it to you in the course of handling the call—then you can jot it down for use next time. If you'd like a handy booklet for listing frequently-called numbers, "The Blue Book of Telephone Numbers" is free. For your copy, just ask at the Telephone Business Office.

Call or Dial Operator (figure "0")
Tell the Operator:

1. The City or Town you want.
2. The out-of-town telephone number, if available, or the name under which it is listed.

FOR EXAMPLE — "Calling Omaha, Nebraska — Davis 2-3456" (If you don't know the telephone number) "Calling Omaha, Nebraska — anyone at Mr. J. Lowell's residence, 34 Blank Street."

3. Your telephone number (and name if required) when requested by the operator.

STATION-TO-STATION CALLS

The above is a station-to-station call because you have not asked the operator to connect you with a particular person or a particular telephone or department reached through a private switchboard. The charge for a station-to-station call is slightly less than for a person-to-person call and begins when the called telephone or private switchboard attendant answers.

PERSON-TO-PERSON CALLS

When you want to be connected with a particular person or with a particular telephone or department reached through a private switchboard, simply give the operator the

same information as above and the name of the person or department wanted, also the extension number if known. The charge is slightly more than for a station-to-station call and begins when you reach the person, extension or department you want.

RATE PERIODS

DAY RATES apply from 4:30 A. M. to 6:00 P.M. on all days except Sundays.

REDUCED RATES apply from 6:00 P.M. to 4:30 A.M. and all day Sundays.

COLLECT CALLS

You may "Reverse" charges, that is, have them billed to the called telephone. Simply tell the operator you want to place the call "Collect." If the called party agrees to pay the cost, charges will be billed to his telephone. There is a small additional charge on station-to-station calls when the initial rate is 25 cents or less.

TO OBTAIN A RATE FOR AN OUT-OF-TOWN CALL

Call or Dial Operator (figure "0") and ask for the rate.

TO PLACE A TELEPHONE CONFERENCE CALL

Call or Dial Operator (figure "0") and ask for rates and other details.

Service Suggestions

After you place a call, be sure to allow what you consider a sufficient length of time to enable the called person to reach his telephone, before concluding there is no one there to answer.

Answering your telephone promptly will assure you better service and avoid abandoned calls or other attempts to reach you. Time is saved by identifying yourself, your Company, or your Department immediately.

Speak slowly, clearly and directly into the telephone with your lips about one-half inch from the mouthpiece. Otherwise you will not be heard distinctly.

Be sure the receiver is properly restored at the close of a conversation. Otherwise your line may be "out-of-order" when someone is trying to call you.

Service Difficulties

Every effort is devoted toward providing you with the best possible telephone service. We shall appreciate your cooperation in reporting promptly any service troubles or defective equipment, such as broken receiver caps, frayed cords, or loose wiring. Repairs and replacements due to ordinary usage or unavoidable accidents are made without charge.

"Beep" Tone Tells When Telephone Conversation Is Being Recorded

A short high "beep" tone heard on the telephone line about every 15 seconds means that the person with whom you are talking is recording your conversation by means of his electrical recording machine connected to the telephone line.

This signal is provided by the Telephone Company for your protection. If you do not want a record made of what you are saying, ask the person with whom you are talking to disconnect the recording machine. When he disconnects his recorder the signal is no longer heard.

The "beep" is produced automatically by the device used to connect the recorder to the telephone line. It stops when the recorder is disconnected. Use of the recorder without this signal is unlawful.

Attachments to Telephones

• The equipment, apparatus and lines furnished you have been designed to produce the best telephone results. No instrument, appliance nor device of any kind not furnished by the Telephone Company shall be attached to or in any way used in connection with such telephone equipment, apparatus and lines except as specifically provided in the Tariffs of the Telephone Company. You are requested, therefore, not to use nor permit the use of such instruments, appliances or devices. The Telephone Company reserves the right to remove such devices, when found, in order to protect the telephone service.

Attachments to Directories

To insure the usefulness of the directory, no attachment, holder or auxiliary cover, except such as may be furnished by the Company, shall be used in connection with any telephone directory furnished by the Company.

Changes and Errors in Directories

Every precaution is taken to avoid errors and omissions in the alphabetical telephone directory, but if they occur, the Company's liability for them as provided in its tariffs is limited to an amount not exceeding the charges for the service affected until a new directory is published. In order that the directory records may contain correct listings at all times, notification of changes or errors should be given at once to the Business Office of the Company.

Improper Language

Profane or obscene language over the Company's wires is prohibited. Subscribers are responsible for the enforcement of this rule. Failure to observe this will constitute cause for discontinuing service.

Advertising Business Telephone Numbers

Many subscribers find it convenient and profitable to use their business telephone numbers on stationery and business cards, as well as in their advertising. We encourage this practice, but it should be understood that the assignment of the telephone number does not vest in the subscriber a property right thereto.

We exert every effort to avoid changing telephone numbers, but the needs of the service occasionally compel us to do so. Obviously, when you display your telephone number, the value to you, and to the service as well, depends upon the number being carried correctly at all times. Therefore, in the event your number is changed, it is suggested that corrections be made as promptly as possible.

The Classified Directory

The "Classified" pages of this directory contain the names of business telephone subscribers listed under headings descriptive of the product, service or profession of these subscribers. These pages enable you quickly to determine the name, address, or telephone number of business telephone subscribers who can supply the product or service desired.

Warning

It is unlawful for any person willfully to refuse to yield or surrender the use of a party line to another person for the purpose of permitting such other person to report a fire or summon police, medical or other aid in case of emergency. Likewise, it is unlawful for any person to ask for or request the use of a party line on pretext that an emergency exists knowing that no emergency in fact exists.

A store may not immediately come
 to the mind of a prospect when spe-
 cial services are desired, such as are
 offered by a Beauty Shop, Radio or
 Watch Repairing Department. Many
 establishments, realizing this, adver-
 tise under several classifications in the
 Classified Directory. Thus they direct
 more business their way.

Plan your shopping with the *Classi-
fied Telephone Directory.*

Modern homes have Additional Telephones...

Where you need them . . . When you need them

With the accent on convenience, mod-
ern homes have *several* telephones.
Additional telephones in the kitchen,
bedroom and basement save time
and steps—let you take or make
your calls where you are, not where
you wish you were.

*And the cost of additional telephones
is amazingly low—
ONLY A FEW PENNIES A DAY.*

**To add a decorative note to
your home order additional
telephones in COLOR**

In the rooms you select, color tele-
phones give handsome testimony to
your own standard of good taste.
Carefully keyed to modern color pref-
erences by leading color consultants,
telephones in color are designed to
personalize your decorative scheme,
to give you a conversation piece
that's as interesting to talk *about* as *on*.

What's more, telephones in color are
available in two distinctive styles—
the conventional desk or table top
model and the attractive, space-
saving wall model.

The low one-time cost of color tele-
phones can be paid, if you wish, in
small monthly installments.

COMPLETE TELEPHONE SERVICE

Makes YOUR home more pleasant

Today over 100 items of equipment are available to make the telephone in *your* home the most efficient servant imaginable. In addition to those described here, there are many more—each designed to save you time and steps, each tailor-made for your special needs. If you'd like to learn how *you* can enjoy complete telephone service, just call your telephone business office.

Illuminated Dial Telephones

Lift the receiver and the tiny lamp floods the dial with light. Or, a flick of the button on the base of the set and you have a handy, friendly night-light. The ideal telephone for bedside or dimly-lit locations.

VOLUME CONTROL TELEPHONE makes listening easier

A small button on the telephone lets the user adjust the volume to suit himself. A joy for those with impaired hearing. Also especially useful in noisy locations like game rooms.

Personalized Directory Listings

Personalized directory listings are perfect for teen-agers or adults living with you and using your telephone but who haven't a telephone listed in their own name.

COMPLETE TELEPHONE SERVICE

**Makes YOUR office
more productive**

Today's businessman knows that modern telephone service keeps business costs low. By saving time and steps around the office and for order taking and customer contacts, complete telephone service is playing an increasingly important role in daily business life. If you'd like to learn how modern telephone service can help streamline your office procedure, just call us. With no obligation, a trained service engineer will analyze your needs with an eye both to economy and efficiency.

Push-button telephones in COLOR

Modern push-button telephones—in eight handsome colors—give you the convenience of six lines for telephoning. Push-button telephones may be equipped with intercom, bell cut-off and privacy cut-off. When you analyze your push-button needs, check and see if you have enough lines to handle incoming and outgoing calls. Don't give your customers the "busy signal" and don't make yourself wait for an outside line.

Speakerphone

A touch of a button permits the user to talk on the telephone without lifting the receiver. A small desk top unit houses a loudspeaker and microphone... listen and talk, and at the same time keep both hands free for writing or consulting files.

The microphone is sensitive enough to pick up conversations from several feet away, permitting use of the Speakerphone for telephone "conferences." If privacy is desired, Speakerphone may be used as a regular telephone.

Automatic Answering Equipment

This full-time telephone "secretary" answers calls automatically when you're away from the telephone. Automatic Message and Answering Equipment gives your recorded message to those calling—invites caller to leave name, telephone number or other recorded message in return.

Even when you're out, you're always in with Automatic Answering Equipment on the job! It's the perfect solution to the problem of missed calls.

telephones where you want them

without exposed

wiring

Today, many architects, contractors and individual homebuilders are planning telephone conveniences right into their new homes. To meet today's trend toward easy living, and the desire for built-in conveniences, many new homes are pre-wired during construction. All wiring is concealed within the walls, and outlets are planned for telephones in the rooms where you live, sleep, work and play.

This floor plan shows
